PRESERVATION OF FOREST SPECIES

INTERNATIONAL YEAR
OF FORESTS • 2011

SLTB Autumn Symposium 2011

Thursday 6th October 2011, 10 am – 5 pm
& Friday 7th October 2011, 10 am – 12.30 pm

Location: Linnean Society, London

The global initiative by the Convention on Biological Diversity (CBD) to achieve a significant reduction in the rate of biodiversity loss by 2010 was not achieved. Of primary concern is the continuing loss of forests and associated species. New targets for 2020, approved at the Conference of the Parties in Nagoya in 2010, includes the need to ‘prevent the extinction of known threatened species and improve and sustain their conservation status.’ The contribution that cryopreservation can make to the conservation of forest species will be the focus of this symposium.

Organised by: Prof Hugh W. Pritchard (Kew, UK), Prof. Florent Engelmann (IRD, France), Dr Maurizio Lambardi (CNR-National Research Council of Italy), Dr Jon Green (UEL, UK)

The Linnean Society of London, Burlington House, Piccadilly, London W1J 0BF

**INTERNATIONAL YEAR
OF FORESTS • 2011**

Friday 7th October 2011

SLTB 2011 AGM: 12.30 pm

&

Free Communications: 2 – 5 pm

Registration Costs:

includes book of abstracts and refreshments but not lunch or dinner

**Payment by
23 September 2011**

non-SLTB members	£150
SLTB members	£ 100
Students	£ 50

To register, contact: Prof Hugh W. Pritchard, Chairman, SLTB,
c/o Royal Botanic Gardens Kew, Wakehurst Place, Ardingly,
West Sussex RH17 6TN, UK.
